Dear All,

I am pleased to announce that we are unveiling a new logo for DMK. A corporate identity that truly represents our business values and principles and can be a true reflection of the people who make DMK what it is today, the DMK Family.

DMK, as we know it today, started its operations way back in 1974 as a small customs clearance family business at Lahore dry port. The company was formally setup in 1996 as a Freight Forwarding service provider. DMK has continuously evolved to keep pace with the changing dynamics of the industry and international trade & economics.

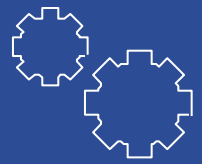

The Blue colour in our new logo represents the Ocean, Air, and all other forms of transportation and Logistics. It also represents the customers, vendors, agents, partners, and the overall industry.

The Orange colour represents DMK and our people whom we lovingly call The DMK Family.

The two circles are running parallel and as well as intertwine demonstrating our strong belief in fairness. That we want to work with our customers, vendors, agents, partners, and with anyone the company interacts with on the basis of respect and fairness and that we believe our interests at the end of the day are same and we want to prosper & grow together.

**MUHAMMAD WASIM KHAN**
